20 years Making a Difference in Hong Kong
20 years Making a Difference in Hong Kong

Operation Santa Claus is the annual charity campaign, jointly organised by South China Morning Post and Radio Television Hong Kong. The campaign seeks to raise funds and awareness for Hong Kong charities over the winter festive season. Last year, the Campaign raised a record-breaking sum of over HK$6 million, with the funds being distributed to various charities.

This year, we are celebrating our 20th anniversary! Join forces with us and together we can make a difference for the needy ones in our community.

Children and Young People

Children and Young People are the hope of our future. This year's projects address different aspects of a child's needs, which include setting up reading rooms for children in AIDS affected areas in China and provision of psychological care to hospitalized children in Hong Kong.

There are also anti-drug programs that aim to raise awareness on the harmful effects of drugs, art programs that help children to channel their inner feelings as well as a series of skills-building forums for disadvantaged young people. With your support, the children and young people who benefit from these projects will receive the care and support they need for the happy childhood they deserve.

From a modest beginning in 1979... do you still remember this jolly father Christmas, who arrived by helicopter to distribute gifts for Operation Santa Claus in 1979?

Mental & Physical Disabilities

People with mental and physical disabilities need your support to integrate into our society and lead a happy and healthy life. This year's selected charities benefit young children with multiple developmental delays such as autism, dyslexia, speech problems and hyperactivity as well as people with moderate and severe physical disabilities.

Some examples of the activities that you can help make a difference include: Timely therapy programs and a training room for children with multiple developmental disabilities; rehabilitation horse riding programs for disabled riders aiming at opportunity for children with special needs; and provision of assistive computer technology and training for individuals with severe physical disabilities, enabling them to look after themselves and overcome daily difficulties.

Family

As our world changes, families today are facing different challenges. The selected organisations under this theme aim to provide support and enhance public awareness for

Support Operation Santa Claus to help make a difference for the 18 beneficiaries this year!

We need your help to break the record again this year and help our 18 beneficiaries!

Health

One of the Health beneficiaries this year is...
