WHAT DO WE DO?
We support local charities in their efforts to alleviate suffering and create a better living environment for those in need in our community. We have selected 23 charities that focus on six distinct areas this year:

1. CHILDREN AND YOUTH
Your kindness will support eight projects which will provide speech therapy and academic support for hearing-impaired children, finance the research and construction of assistive robots for students with special education needs, develop art workshops for young psychiatric patients in hospitals and organize summer camp for children in rural China.

2. COMMUNITY
Our generous donations will contribute to seven projects in order to enhance the quality of life for all of the community, the elderly, people with disabilities and those in need.

3. ELDERLY
The DSC grant will fulfill an old dream of residents as storytellers to share the lives of children and families in lower-income areas in a series of harmonious events.

4. ENVIRONMENT
Your support will help heighten environmental awareness for the younger generation. In this project, students are able to design and develop their environmental protection projects under professional guidance from mentors.

5. MEDICAL
Your donations will contribute to four medical assistance projects, such as rehabilitation therapies and training programmes for caregivers and a variety of support for patients suffering from chronic diseases, cancer, spinal muscular atrophy and AIDS.

6. PHYSICAL DISABILITIES
Your kindness will support two projects which provide training for stroke patients from professional therapists as well as engaging young people with physical challenges in confidence-building activities.
